

Encorus Group recently merged with Sienna Environmental Technologies, LLC, an environmental, regulated building materials, and construction consulting firm which was established in 2000. Encorus Group's new Regulated Building Materials division can now perform a wide range of services associated with environmental, hazardous, and regulated building materials management and abatement. Services include inspection, project design, sampling, and analysis as well as oversight for renovation and demolition projects for compliance to contract documents and regulations.

### About Encorus Group

Encorus Group is a professional engineering, testing, inspection and regulated building materials services firm with offices in Buffalo, Springville, and Utica, New York. Founded in 1996, the firm now has a staff of over 100 full-time employees, including licensed professional engineers in all major disciplines and registered architects. This allows Encorus Group to offer a comprehensive in-house solution for any project, no matter how big or small. In addition, our civil materials testing, non-destructive examination, and mechanical integrity asset management divisions offer a wide range of inspection services to meet the needs of our industrial, nuclear, manufacturing, healthcare, and higher education clients. In addition, our recent merger with Sienna Environmental Technologies allows us to perform a wide range of services associated with environmental, hazardous, and regulated building materials management and abatement.

Encorus Group is certified as a Service-Disabled Veteran-Owned Small Business (SDVOSB) at both the federal and New York State levels.

### Technician Certifications

Our professional staff includes Professional Engineers, Management Planners, Project Designers, Risk Assessors, Inspectors, Project Monitors, and Air Sampling Technicians. All of our staff maintains current federal and state licenses and certifications, and all of our employees are trained in the industry's best practices for Health and Safety above and beyond federal regulations. We are certified by OSHA, EPA, NYSDOH and NYSDOL.

### Clients Served

Our RBM division is proud to have served over 400 public and private clients throughout the Northeast, many in an ongoing relationship. We partner with professional design firms entrusted with reimagining public spaces. We also team with the construction companies who are charged with executing the building of the re-designed spaces.

Our clients include architectural and engineering firms, colleges and universities, public and private school districts, manufacturing and commercial facilities, construction management firms, utilities, and both federal and privately managed medical facilities. We have worked with several governmental agencies, including DOT, DASNY, OGS, SUCF, NYPA, VAMC and USACE.
